## Do I need to be vaccinated?

You are at higher risk of contracting the virus if:

- You work in a sex workplace
- You are a man and have multiple male sexual partners
- You are a trans person (male, female, non-binary) and have multiple partners
- You work, even occasionally, as a sex worker

In these cases, vaccination is strongly recommended

## How do I get vaccinated?

Make an appointment at a vaccination center  
you will find the list on [www.sante.fr](http://www.sante.fr)  
or on the ARS website (Health Regional Agency)  
by scanning this QRcode

You can be vaccinated even  
if you don't have a carte vitale  
nor AME (State Medical Aid)

You will not be asked for any proof
